

NOTICE OF REMOVAL ACTIVITIES

From: Keisha D. Long, Project Manager

Date: March 13, 2017

Subject: Former Columbia Wood Preserving Site
2001 Shop Road, Columbia, SC
BLWM File #57704

Site Description

The Columbia Wood Preserving facility (the Site) was a wood treating/preserving company from 1949 until 1977. The Site includes parcels north and south of Shop Road. Sampling has shown chromium, copper, arsenic, volatile organic compounds (VOCs), and semi-VOCs in groundwater and soils on the Site. The contamination has not been detected off facility property. Environmental investigations and cleanup activities have been ongoing at the Site since 2009. Additional information may be viewed at:

http://www.scdhec.gov/HomeAndEnvironment/Docs/Interim_RA_Workplan.pdf

Current Status

Excavation and offsite disposal of the contaminated soils is planned to begin in March 2017. You may see or hear workers and equipment at the Site during this time.

Please contact either Pat Vincent or Keisha Long if you have any concerns or questions about the cleanup:
